## PENSION ATTORNEYS

**RESPONSIBLE FOR THE ASTONISHING NUMBER OF APPLICATIONS.**

Washington, May 21—More than 28 per cent of the men enlisted in the army for the war with Spain have already applied for pensions. Commissioner Ware says the showing is unpleasant and he blames the pension attorneys for it. He declares that very few of the men who have applied saw any actual fighting, and that a smaller portion of the few volunteer regiments which saw hard service in the Philippines have sent in applications than in the regiments which never left the instruction camps.

The applicants under the head of "invalids" number 57,040, and "widows and dependents" 8,390. There have been allowed 9,881 invalid pensions and 3,160 of the other class. A total of 18,185 claims have been rejected, leaving 31,201 pending on May 1. New applications are coming in daily by the hundreds, and the indications are that nearly 80 per cent of the men enrolled on the army lists during the war with Spain will have applied for pensions by the end of the year.

## "TIME" IS CALLED

**Opening Game of the Paducah League Team Today.**

Clarksville Club Arrives and a Large Crowd is at Wallace Park.

**MANY STORES ARE CLOSED**

This afternoon the K. I. T. league opened here with a game between the Clarksville, Tenn., and Paducah league teams and a large crowd is out to attend. Both teams are in excellent condition and are fighting hard for victory.

This morning the Clarksville team arrived here on the accommodation via Hopkinsville and are a fine looking lot of fellows. They have several swift players who have seen some fast playing and Paducah is reinforced with several new players who will be run in if the regular line-up is shattered by an accident. The game was called at 3:30 by Umpire "Chief" Lloyd and the following is the line-up of both teams:

Paducah—Clifford, center field; Sweeney, right field; Murray, left field; Sexton, second base; Simcox, first base; LeCompte, short stop; Masecman, third base; Lambert, catcher; Hodges, pitcher; Mackie, pitcher.

Clarksville—Eagle, third base; Garlile, center field; Fieldhaus or Harris, second base; Holmes, catcher; Quinly, left field; Adams, right field; Atkinson, short stop; Collins, pitcher.

Paducah has three new players here, two being used in today's game. They are Lambert, of Dayton, O., catcher; Masecman, of Cincinnati, third base, and Coppock, outfielder or infielder, of Dayton, O. These men are all first

class players. Clifford is the only splendid efforts which had won them all the praise of the emperor, and Austria and Germany. Then suddenly, he put up to his horse and galloped away without a word of explanation. He did not stop until he reached the convent, which has been his home ever since. Once inside he threw his sword, his orders and his brilliant uniform on the floor and put on the coarse garb of a monk. For ten years he worked untiringly among the poor as Father Charles. No one but his brethren knew his name, no one his secret and now it has been buried with him.

## STEEPLE JACK

**AT WORK WHEN LIGHTNING STRUCK THE SPIRE.**

Fitchburg, Mass., May 21—Charles Taylor, the well known Steeple Jack of New England, came nearer to death in this city than ever before in his adventurous career. It was a miracle that he is alive.

Apparently struck by a blinding flash of lightning, which hit the steeple, he managed somehow to retain his presence of mind and to get down to earth far below.

Somehow, although it looked like the shock of the bolt had thrown him completely away from the roof of the church steeple, he managed to get his clutch, when onlookers had their eyes to hide the sickening look of his expected fate. Aside from slight nervousness, he is all right.

They deny that they are the ones who robbed the complainant."

## THEIR WORK DONE

**Grand Encampment Finished and Adjourned Last Evening**

Officers Chosen and Middleboro Selected the Next Meeting Place.

**DELEGATES WELL PLEASED**

The grand encampment of Kentucky Odd Fellows transacted its business in short order yesterday, and today most of the delegates have returned home. The officers elected for the ensuing year are: W. M. Todd of Middleboro, grand patriarch; C. P. Scott, of Ghent, grand high priest; Enos Badya, of Louisville, senior warden; J. L. Branner, of Mt. Sterling, junior warden; R. G. Elliott, of Lexington, scribe; and George W. Morris, of Louisville, treasurer. William H. Cox, of Maysville, state delegate to the supreme encampment.

Middleboro was selected as the place for holding the grand encampment next year.

The degree work took place last night at the Odd Fellows hall, and after that the closing social features of the meeting were held at the Knights of Pythia hall and were greatly enjoyed. The delegates were well pleased with the hospitality shown them at Paducah, and the Paducah brethren deserve great credit for their earnest work in preparing and caring for them.

## GOES TO FRANKFORT.

**LEUTENANT JORDAN TO LOOK AFTER PETITION.**

Leutenant Jordan, of the Wheeler Guards, the local military company, will leave today or tomorrow for Frankfort to look after the petition sent in several weeks ago to secure an other company for this city. This city is entitled to one more company or a full battalion and the members of the guard think they can secure enough new members to make the other company. No action has been taken in the petition and Leutenant Jordan is going to urge immediate action.

## TO ELECT OFFICERS.

**A MEETING OF THE DIRECTORS OF THE INDEPENDENT COMPANY.**

The Independent Telephone Co. will this afternoon hold an election in which all officers of the company will be elected. This will be the second election held since organization and all the present officers are tipped for re-election. The present officers are: F. M. Kirby, of Wilkesbarre, Pa., president; R. E. Ashbrook, city, vice president; F. O. Kirkedall, Wilkesbarre, secretary and treasurer.

## ARE PASSED AT LAST

**Council Finally Decides What it Wants in the Street Matter.**

Allows Property Owners to Build Pavements of Either Brick or Granitoid.

**BUSINESS OF THE MEETING**

Messrs. Reed, Gilson and Woolfolk were absent from last night's called meeting of the council.

The city tax books were ordered from the hands of the clerk into the hands of the treasurer, who will index them preparatory to beginning work.

The street improvement ordinance was read and given first passage. It provides for the improvement by paving of Second street from Jefferson street to Broadway, Third, Fourth and Fifth from Jefferson to Court, the work to be completed by November 15.

The ordinance relating to the pavements to be built along the streets thus improved was given first passage. It permits property owners to have the sidewalks constructed of either brick or granitoid, and specifies that they shall pay the entire cost of the sidewalks.

An ordinance fixing the city assessor's salary at \$900 a year with \$100 a year for an assistant was passed.

The agreement with Marshal Crow by which he is paid \$355 for all claims he held against the city for the time he was out of office, was carried out by the allowance of the amount.

An ordinance was given first passage allowing the Illinois Central to construct another track from 100 feet north of Trimble street at Ninth up to Harrison street. This permission, with \$500, has been given the road for property desired for improving Clark street near Ninth.

The council will meet again tonight in called session to give first passage to the above ordinances, after which the board of aldermen will meet in regular session.

## AGAINST THE BOAT.

**THE CARRIER AWARDED HIS CLAIM OF \$10.**

The libel case brought against the steamer Inverness by Kirk Davis, colored, was tried this morning before Commissioner Gardner and decided against the boat.

Davis is a tie carrier formerly employed on the Inverness and several weeks ago jumped the boat up the Tennessee river authorizing another negro to collect \$10 due him for services rendered. The money was paid the substitute but Davis claims he never got it. He took out preliminary summonses against the boat and secured his money. The boat owner took an appeal.

## THE CENTRAL UNION

**To Hear a Report on the Ship-builder's Strike.**

Its Action May Have Some Influence—Osborne Waiting for Repairs.

**THE SITUATION UNCHANGED.**

Central Labor union meets tonight, and its action on the ship carpenters and caulkers' strike at the ways and docks may have considerable to do with a settlement of the controversy between the proprietors and the employees. A committee was appointed a few nights ago at a called meeting of the Central body to confer with the dock and ways men relative to an agreement, and tonight this committee will make a report, which will probably be that it was unable to effect a settlement.

It is possible that on the report submitted Central Labor union will indorse or refuse to indorse the strike, and if it gives the strikers its support, it will make the situation more complicated and render more remote the prospects of a settlement unless the proprietors give in.

The transfer steamer Osborne, which is in need of repairs, is waiting to go on the ways, but there is no probability at present of the work being done. All the ways plants that are running are crowded with work, and those that are shut down of course cannot accept work.

Inspector of floating stock of the Illinois Central, Captain Hollingsworth, this morning stated that the Illinois Central at present has no available boat to use in the trade here, as all its steamers are in service, and the company will have to use between Paducah and Brookport the big new barge Aoadale, towed by the Woolfolk, which, however, is very satisfactory at this season of the year.

The Paducah Dry Docks Co. yesterday afternoon notified the striking ship carpenters and caulkers that the proprietors had agreed to accept the demands made for a nine hour work day at \$3 per day but the union men refused to return to work on account of four non-union men working on the boat now on the docks. The union men have so informed the docks people, who claim they are powerless to act as the men were brought here by Captain W. D. Crammond, of Hawesville, Ky., who owns the boat, and for whom they are working.

Mr. Charles Hoyerman, president of the ship carpenters' union stated this morning that the report published in another paper was incorrect as the men did not refuse to return to work because they thought the proprietors just wanted them to finish the present work, but because the non-union men were employed. Mr. W. J. White, president of Central body stated this morning that all would be well if the non-union men were taken off but if not the carpenters would not return to work in violation of the laws of their union. The proprietors of the docks claim that Captain Crammond will not take the men he brought here off the job because he had gone to such an expense bring them here and did not intend to take them off until the job was finished.

Captain Mike Williams was seen this morning relative to his disposition made by the Howards but stated that nothing had been done in the matter and that the Howards were still holding out against the demands of the union men. The steamer Osborne will have to be repaired and if she is not taken out here will be sent to St. Louis. The I. C. officials want the boat repaired at once and will take action immediately. Captain Hollingsworth, of the I. C., who has charge of the boats, held a conference with Captain Williams, of the ways this morning, but nothing definite was settled. Captain Williams having received no word from headquarters.

A union man stated this morning that a majority of the union men here had left the city and if the carpenters and caulkers were granted the demand the force would be short. They are

## DIED BY OWN HAND

**Louisville Hotel Clerk Drank Carbolic Acid.**

Took Money to Pay Off His Debts of Honor—Found in Shawnee Park.

**NEWS FROM KENTUCKY**

Louisville, May 21—W. H. Gresham, the clerk at the Galt house who disappeared leaving a note saying that he had lost money playing cards and the races, who took \$683 belonging to the hotel and said he intended to commit suicide, kept his word.

He committed suicide in Shawnee park by taking carbolic acid. The deceased was from Virginia, was single and had been connected with the hotel for a number of years.

Yesterday morning Chief Clerk Kesslering was on watch. One of the guests who had given Gresham a check Monday wanted his money and Mr. Kesslering sent up to Gresham's room, asking where the check was. Kesslering considered that it was strange that the check was not in the safe.

Kesslering sent a note to Gresham's room saying that he wanted to see him. Gresham sent word down that he would be down shortly. The guest, who was in no hurry for the money, went away, saying he would return in the afternoon.

At 1 o'clock in the afternoon when it was time for Gresham to go on watch Kesslering received a note from him. It was brought by a messenger boy.

Gresham's farewell note was as follows:

My Dear Count: I have played the string out. I owe different amounts in the hotel, making \$683. You will never see me alive. I am sorry to do this on you all, but I tried to raise the money and can't.

If the Woodmen will pay the insurance on my life I want you to tell my sister to pay what I owe out of it.

Good bye, old boy.

**W. H. GRESHAM.**  
Gresham was about 48 years of age and a member of a prominent Norfolk, Va., family. He had been in the hotel business about 20 years.

He first worked at the Norfolk hotel. Later he secured employment at the French Lick Springs. About ten years ago he became clerk at the Louisville hotel and five years ago went to the Galt house.

Gresham was a high liver. He drank considerably, gambled and spent money on fast women.

During the spring meeting of the Louisville Jockey club, which closed Tuesday, he went to Churchill Downs every day that he was off duty, and it was stated lost considerable money.

By many people Gresham was called "Judge." He was obliging and courteous and had a wide acquaintance among the traveling public.

### POPE'S WORDS REPRODUCED.

#### SOLEMN BENEDICTION AND CARDINALS' RESPONSES IN PHONOGRAPH.

Notre Dame, Ind., May 21—By the aid of a phonograph the faculty and students at the university heard the voice of Pope Leo XIII. in solemn benediction and the responses sung by the cardinals and the members of the papal court as they occurred at his jubilee celebration March 3, in Rome.

The cylinder was presented to Dr. Zahn by M. Bettini, the scientist, the day the doctor left for Paris. The one condition on which he permitted the cylinders to be made was that they should not be used for commercial purposes.

### PUBLIC SUBSCRIPTION.

#### TALKED OF FOR STOCKING THE NEW PUBLIC LIBRARY.

The public library trustees are thinking of starting a public subscription shortly for the purpose of raising funds with which to purchase books for the new library, which will be finished in a few months.

There are at present no funds with which to buy books, and as the library without books will do the city very little good, there will have to be books. Therefore the people will have to contribute the money necessary to buy them. Where to get these books is to be a serious problem before the library is thrown open.

### READY TO BEGIN.

#### SHERIFF POTTER WAITING FOR OFFICIAL NOTIFICATION.

The county tax books are now ready at Sheriff Potter's office, and the sheriff will begin the collection of taxes as soon as he receives official notice from Frankfort of the action of the state board of equalization which raised McCracken county, and subsequently reduced it according to the promise made the local delegation sent up to appear before the board. It has not officially notified the sheriff, however, of what it has done.

Captain J. M. White of Nashville is in the city.

### HAND TO HAND

#### MAD MULLAH'S DERVISHES THUS FOUGHT THE BRITISH.

London, May 21—An official war office dispatch from Aden, Arabia give details of the desperate encounter which took place at Burilli, Somaliland, May 4, between an Abyssinian force operating in conjunction with the British against the Mad Mullah and a large force of the latter's dervishes. After a hand to hand fight, lasting 45 minutes, the dervishes were driven off, with the loss of 300 men killed and two wounded. The Abyssinians had 21 men killed and wounded.

Subsequently the Abyssinians raided the wells northwest of Burilli and captured several prisoners. The latter said the Mullah was at Ubertake.

### PROMPTLY ARRESTED

#### WAS THE MAN SUPPOSED TO HAVE MADE THREATS AGAINST THE PRESIDENT.

Sacramento, Cal., May 21—President Roosevelt's special train was greeted by vast crowds at the station. Shortly after the president's arrival a man was arrested by Citizen P. M. Woodson. Woodson heard him say: "One has died, and another might just as well."

When arrested and taken to jail the man gave his name as Randleman. He had a big six shooter inside his vest and two extra cartridges in his pocket. He offered no explanation. He has a ticket from San Francisco to Selby smelting works. He had \$27 in his pocket.

After delivoring an address, the president left for Portland, Ore.

### PAY CAR.

#### MONTHLY CARGO OF LOURE DUE THIS AFTERNOON.

The pay car will arrive in Paducah late this afternoon and all local employees will be paid off. It goes from here to Hopkinsville.

Judge D. G. Park of Mayfield is in the city today on business.

### WHO NEXT?

#### DETECTIVES ORGANIZE TO GET HIGHER WAGES.

Chicago, May 21—Pinkerton detectives, despised and execrated by union labor everywhere, especially since the affair at Homestead, have at last joined the ranks of union labor themselves. They have formed a union and struck for higher wages. The patient slenths who get \$1.57 a day or either a night for peering into doorways, trying locks, turning in fire alarms and standing the abuse of drunken men think they are entitled to at least \$2 a day and will refuse to return to work until the management comes to terms. It is known that the Pinkerton's union is yet unaffiliated with any labor body, but it is not thought there will be a rush of union men to take the vacant places, so the detectives stand to win in their struggle.

There are about 600 of the men in Chicago, principally employed as watchmen. They are drilled the same as police and have been required to work long hours in all kinds of weather. The officers of the company say they do not anticipate any trouble in finding new men.

### TRAIN TIME CHANGED

#### OFFICIAL ANNOUNCEMENT IS MADE TODAY.

It is now officially stated that the change of time of passenger train No. 101, from Louisville to Memphis, will be made Sunday when the new time card goes into effect. This train now arrives at 7 o'clock and leaves at 7:05 but after Sunday will run as before, arriving at 6 o'clock and departing at 6:05. This is the only change made in the schedule on the Louisville and Memphis passenger trains.

### SLOT MACHINES BURNED.

#### PHILADELPHIA HAS A GRAND CONFLAGRATION OF GAMBLING DEVICES.

Philadelphia, P., May 21—Thirty hundred slot machines, valued at about \$125,000, were publicly burned by order of Director of Public Safety at their Smythe. Director Smythe has in his custody 250 pounds of nickels and pennies which have not been counted. At this money will be turned over to the city treasurer.

During the burning of the machines, two fire companies guarded the surrounding property.

### ROAD WORK.

#### GRADING BEING DONE ON NEW ROAD FROM BROADWAY.

Grading has begun on the new dirt road being built from a point near Grundy's hill, on the Broadway road, to the Berger home on the Mayfield road and Contractor Yancey now has a force of men doing the grading. The new road will save people coming to the city, several miles.

#### \$1,500 DINNER TO AN ACTRESS.

London, May 21—The costliest dinner of the season was given at the Carlton hotel by Clarence Jones of New York in honor of Ethel Barrymore, the actress. The room and table were loaded with American beauty roses. There were ten guests, exclusive of Miss Barrymore. Mr. Jones gave the men present gold chains and the women costly hand-painted fans. It is estimated that the dinner cost \$1,500.

#### KENTUCKY APPLICANTS PASS.

Washington, May 21—Advices received here from Annapolis, Md., today state that J. T. Cruso and F. Goldthwaite of Kentucky have passed the mental examination for entrance to the United States naval academy, and will now be ordered to report for the customary physical examination.

#### Wisconsin Farm Lands.

The dairy products of Wisconsin now rival in value all the animals sold, each being worth about \$27,000, 000 per annum. Little more than half of the state is in farms. The average area of a farm is 117 acres.

## TRAGIC END TO A ROMANTIC CAREER.

Prague, May 21—In the large Benedictine convent, in this city, died a young monk. He was only 40 years old, and was known by everyone as Father Charles. This modest and charitable member of the holy order of the Benedictines was once one of the most dashing cavalry officers of the empire. Ten years ago he was known under his own name as Prince Eduard von Schoenburg Hartenay. Related to the Imperial family, a favorite of Emperor Francis Joseph, popular among his fellow officers and loved by all his soldiers, no one has ever been able to understand why he suddenly gave up his splendid future and joined the Benedictines. He was rich, had no unhappy love affairs, was flattered and admired by the ladies at court and seemed to be the most cheerful and jolly of all the members of the military clubs at Vienna.

This was up to ten years ago. In 1893 he was ordered to take to his regiment, the famous Thirteenth regiment of Ulans, to the great maneuvers in Galicia, and here he won universal praise for the splendid management of his troops. On the last day of the maneuvers after the final grand review had taken place, he gathered his fellow officers and men around him, and still seated in the saddle, told them that he would have to leave them forever. He thanked them most cordially for their friendship and their splendid efforts which had won for them all the praise of the emperors of Austria and Germany. Then suddenly he put spur to his horse and galloped away without a word of explanation. He did not stop until he reached the convent, which has been his home ever since. Once inside he threw his sword, his orders and his brilliant uniform on the floor and put his on the coarse garb of a monk. For ten years he worked untrillingly among the poor as Father Charles. No one but his brethren knew his name, no one his secret and now it has been buried with him.

### PENSION ATTORNEYS

RESPONSIBLE FOR THE ASTONISHING NUMBER OF APPLICATIONS.

Washington, May 21—More than 28 per cent of the men enlisted in the army for the war with Spain have already applied for pensions. Commissioner Warr says the showing is unpleasant and he blames the pension attorneys for it. He declares that very few of the men who have applied saw any actual fighting, and that a smaller portion of the few volunteer regiments which saw hard service in the Philippines have sent in applications than in the regiments which never left the instruction camps.

The applicants under the head of "invalids" number 57,040, and "widows and dependents" 8,300. There have been allowed 9,881 invalid pensions and 3,160 of the other class. A total of 18,185 claims have been rejected, leaving 34,201 pending on May 1. New applications are coming in daily by the hundreds, and the indications are that nearly 50 per cent of the men enrolled on the army lists during the war with Spain will have applied for pensions by the end of the year.

At the close of 1872, eleven years after the beginning of the Civil war and seven years after its close, only about 6 per cent of the soldiers who served in the Union army had filed claims for pensions.

## NO SEDITION

SO THE COURTS DECIDE IN PHILIPPINE CASES.

Manila, May 21—The supreme court has decided that Dorr and O'Brien, respectively proprietor and editor of Freedom, are not guilty of sedition.

Messrs. Dorr and O'Brien were arrested on the charge of sedition in publishing an article from an American periodical, to which the editor of Freedom agreed and added remarks to his own, censuring the United States commission's rule.

The main charges made were that in many cases the Filipino officeholders were rascals, and that the commission had exalted to the highest positions Filipinos who were notoriously corrupt. The conviction of Dorr and O'Brien "on the charge of libelling Benito Lagarga, a native member of the Philippine commission," was yesterday confirmed by the supreme court at Manila.

### KILLING UNCONFIRMED.

LEE TURNER ALLEGED TO HAVE SHOT HIS BROTHER.

Middleboro, Ky., May 21—An unconfirmed report has reached here that Lee Turner, who was proprietor of the Quarter House, which was burned, killed his brother, "General" Turner, in a fight with pistols at Jacksonboro, Campbell county, Tennessee, yesterday. Lee killed his brother, according to reports, with his famous revolver which will shoot twelve or fifteen times. General, who has been in jail at Jacksonboro, was angry at Lee because he did not bail him out. The first man he saw on stepping from jail was Lee and he immediately fired twice, but his shots went wild. Lee's shots, which followed, riddled General.

### RAILROAD NOTES.

CHIEF ENGINEER WALLACE FINISHES INSPECTION.

Mr. H. U. Wallace, chief engineer of the I. O., left last night at 7:05 for the south after having thoroughly inspected the Cairo extension of the I. O. Engine No. 1005, one of the big Atlantic type of engines, brought in the morning accommodation train from Fulton today. This engine is being broken in on this division.

Mr. William Kellar, gardener for the I. O. Louisville division, is in the city today.

Roadmaster J. M. Russell, of the Louisville division of the I. O., was in the city last night on business.

### DEATH WATCH GONE

McARTY'S SUICIDE MYSTERY MAY BE CLEARED.

Lexington, Ky., May 21—Alexander McKeever, the death watch who was with William McCarty when he committed suicide Friday morning, at the hour he was to have been hanged for wife murder, has disappeared, and his whereabouts are unknown. The investigation was to have been continued here this morning, but McKeever is missing, and a search for him has been instituted.

The county officials announced that if it could be learned who was responsible for the delivery of the poison to McCarty, he would be punished.

### A FATAL FALL.

BALLARD MAN FALLS FROM LOAD OF TOBACCO.

Mayfield, Ky., May 21—Tuesday a Mr. Mayberry left his home near Blandville with a heavy load of tobacco for this market. It was packed high on his wagon.

Mr. Mayberry a man about 45 years old got on top of the tobacco to ride while his son drove the team. In passing over a small ravine he fell off and was dangerously hurt and is not expected to live. He is one of Ballard county's best men, and his misfortune is very much regretted.

### OFFICIAL GOES UP.

MR. J. J. GAVIN IS MADE A SUPERINTENDENT.

J. J. Gavin, who for some time acted in the capacity of assistant superintendent of the Tennessee division under J. G. Lorton and W. H. Stillwell, present incumbent, has been appointed superintendent of the Louisiana division of the Illinois Central, with offices at New Orleans. He succeeded O. T. Soaff, who has been as-

## HERE'S A BABY

Its Mother is Well.

The baby is healthy because during the period of gestation its mother used the popular and purely vegetable liniment.

### Mother's Friend

Mother's Friend is a soothing, softening, relaxing liniment, a muscle maker, invigorator and freshener. It puts new power into the back and hips of a coming mother.

It is applied externally only, there is no dosing and swallowing of nasty drugs, no inward treatment at all.

The state of the mother during gestation may influence the disposition and future of the child; that is one reason why mothers should watch their condition and avoid pain. Her health, that of the child and their lives, depend on keeping free from pain, worry and melancholy. Be of good cheer, strong of heart and peaceful mind. Mother's Friend can and will make you so. Bearing down pains, morning sickness, sore breast and insomnia are all relieved by this wonderful remedy. Of druggists at \$1.00 per bottle. Send for our book "Motherhood" free.

THE BRADFIELD REGULATOR CO., ATLANTA, GA.

## INSOMNIA

"I have been using CASCARETS for insomnia, with which I have been afflicted for over twenty years, and can say that Cascarets have given me more relief than any other remedy I have ever tried. I shall certainly recommend them to my friends as being all they are represented to be."—Thos. Gilman, Esq., Ill.

### SPRING AILMENTS.

There is an aching and tired feeling; the liver, bowels and kidneys become sluggish and inactive, the digestion impaired, with little or no appetite, no ambition for anything, and a feeling that the whole body and mind are tuning up. The trouble is that during winter there has been an accumulation of waste matter in the system. Herbine will remove it, secure to the secretions a right exit, and by its tonic effect fully restore the wasted tissues and give strength in place of weakness. 50c at DuBois, Kolb & Co.

PRISONER STOLE OFFICER'S GUN AND ESCAPED.

Parsons, Kan., May 21—A lone highwayman held up the night clerk in St. Clair's restaurant and at the point of a revolver compelled him to hand out the contents of the till, about \$40. A good description of the man was given by the clerk and late in the afternoon he was located by two brakemen. The city marshal secured a handcuff, and, taking the two brakemen, went out to the man. Marshal Jones arrested the highwayman and brought him up to the bandcar, where he made him hold up his hands. Then, giving him his own six-shooter to a brakeman, he started to search his prisoner. Quick as a flash the robber drew his revolver and covered the brakeman, whom he made lay down the marshal's gun. Both brakemen ran and Marshal Jones had to come back into town minus his prisoner and his revolver.

### CURES WHEN DOCTORS FAIL.

Mrs. Frank Ohlsson, Patterson, La., writes June 8, 1901: "I had malaria fever in very bad form, was under treatment by doctors, but as soon as I stopped taking their medicine the fever would return. I used a simple bottle of Herbine, found it helped me. Then bought two bottles, which completely cured me. I feel grateful to you for furnishing such a splendid medicine, and can honestly recommend it to those suffering from malaria, as it will surely cure them." Herbine, 50c bottle at Du Bois, Kolb & Co.'s.

Mr. Linus Orme went to Kuttawa this morning on business.

**DAILY THOUGHT.**  
"Right thinking pays large dividends."

**THE WEATHER.**  
Fair tonight with showers Friday.

The story that poisoned whiskey was sent to Curtis Jett, the alleged assassin of Attorney Maroon, sounds slightly gaudy. In that locality they don't adopt such a tame, prosaic way of killing folks.

The St. Louis reformers in the booting cases are receiving a set-back. All the cases thus far decided by the supreme court have been reversed and remanded for new trials. It would appear the booters have no intention of going to the penitentiary. They have too much money.

The newspaper discussion of the best man to officiate as the Democratic Moses in the next presidential campaign fails to throw any light on the subject. Few of the Democratic leaders have the same opinion about the best man to run, and the darkness in which they grope bids fair to continue. No man can unite a party so hopelessly run down and split up the back, and if he could, what chance would the Democrats have even if united?

If the police officers can "look" after the city's sanitation without neglecting their other duties they ought to get at it. It is very doubtful, however, with the extensive beats the officers have, if they can satisfactorily attend to this important duty. If they can't it is very foolish to leave it to them. The health of the city means a great deal, often more than money or morals, because a citizen without health has very little use for either of the other two.

The so-called postoffice "scandal," just as predicted, has failed thus far to pan out. Not a single charge of corruption or irregularity has been substantiated after the most searching investigation. The sensational statements made by a former official are denied by all concerned, and there has been no evidence offered to prove any of them. It is understood that the high officials now have sufficient evidence to assure the president when he returns that there was nothing in the "sensation."

Those impatient and enthusiastic Democrats who are announcing their intention of running for the Democratic nomination for state senator in this district to succeed McD. Ferguson, nominated for railroad commissioner, on the presumption that there will be a vacancy in the senate because Senator Ferguson will be elected railroad commissioner, should remember the old story about counting chickens before they hatch. Senator Ferguson may still be Senator Ferguson, even after the election of railroad commissioner. The Republicans expect to interest him slightly before November.

Under the head of "unfinished business" the municipal boards ought to take up and dispose of the many matters they have been putting off from time to time. It appears to be as hard for them to settle any question, however simple, that comes before them as for the much talked-of camel to get through the eye of the time-honored needle. We need in our boards

### "A HELPING HAND."

IS GLADLY EXTENDED BY A  
PADUCAH CITIZEN.

There are many enthusiastic citizens in Paducah prepared to tell their experience for the public good. Testimony from such a source is the best of evidence and will prove a "helping hand" to scores of readers. Read the following statement:

Mr. J. W. Hart of 223 Jefferson street, proprietor of boarding house near Central park, says: "I had attacks of kidney complaint for four or five years, and every time I caught cold it settled in my loins and I suffered severely. When the spells were at their worst I could hardly stoop or bend. If I did stoop I was compelled to regain an erect position very, very slowly. On such occasions trouble with the kidney secretions existed, and when last annoyed I noticed Doan's Kidney Pills advertised at DuBois & Co.'s drug store and guaranteed to cure just such symptoms of kidney complaint mentioned above. Getting them and using as directed, the result of the treatment was decidedly satisfactory."

For sale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name, Doan's, and take no substitute.

One property owner who is afraid some contemplated action of the boards will cost him a few dollars can influence some of the members more than all the beauty, convenience and health of the city combined.

It is hoped the board of aldermen will promptly sit down on the council's absurd proposition to allow sidewalks along the paved streets to be built of brick or granite. Every person with an eye to the eternal fitness of things knows that it will never do to have a conglomeration of brick and granite alongside each other in making such an improvement. The pavements along a permanent improvement like paved streets should be uniform as well as lasting, and they will be neither as long as the municipal boards allow them built of different material, and only to please the property owners. It is the city that has to be considered in such matters, and the appearance of our streets and sidewalks, not the pocketbooks of interested property owners.

### NO SUBSTITUTE NOW.

ALEX VENTERS HAS TENDERED  
HIS RESIGNATION HERE.

Mr. Alex Venters, substitute mail carrier, has tendered his resignation, leaving the local postoffice without a regular substitute. Mr. Earl Hazen, the other substitute, resigned several days ago.

The civil service commission will have to appoint new substitutes from the list of eligibles as decided by the recent examination. There are at present no eligibles on the list.

### Eye Strain

Is a potent factor in the normal development of mind and body, and in causing and perpetuating physical illa. Defects of eyesight must be overcome in order to see clearly, and this can only be done by an expenditure of "nerve force." The brain must be constantly active keeping unbalanced eyes in their place. Is it any wonder that nervousness and sleeplessness are the result? Isn't it far better to have your eyes examined and find the cause of the trouble than to suffer?

## LOOK AND LEARN

Paducah's Condition Becomes  
Steadily Worse, It is Claimed.

Police Instructed to Make Sanitary  
Inspections, But They  
Haven't Time.

NO RELIEF IN SIGHT

The unsanitary condition of Paducah has become a menace to the public health, according to local doctors, and yet the city has done practically nothing towards abating the nuisances that exist everywhere. The accumulation of filth, offal, excrement and decaying slops and vegetation is said to be alarming, and the heavy rain last night made it worse.

"The filth everywhere has been loosed and spread over a larger area by the heavy rain," declared one doctor this morning, "and there is no doubt in my mind but that whole sections have been contaminated by it. Of course there is no way to determine at present just how much injury will result to the health of the people from the noxious conditions that exist, as often disease contracted from such sources requires some time to develop, but it is bad enough."

The legislative boards have left the matter of sanitation in statu quo for the past several weeks, and although every year heretofore regular sanitary officers have made regular trips over the city from April 1 until November 1, this year none at all have been made. The filth has been permitted to accumulate since that time, nearly seven weeks.

Mayor Yeiser, on account of the indignation that is being manifested, especially among the medical men who best realize the danger. Monday night announced that he would have the police commissioners order the police officers look after the sanitary inspections.

A member of the police board this morning stated to a reporter that the legislative boards had done absolutely nothing towards having sanitary in-

spections made, and as they talked of taking four or five of the regular policemen and requiring them to attend to the sanitation exclusively, which would have reduced the police force and given them less men than they believe they need, the police commissioners simply agreed among themselves to instruct the police officers to report any infractions of the law relating to nuisances, and swear out warrants.

In other words, the police have been instructed to make sanitary inspections, which there is no evidence thus far they have done. In fact, it is claimed by many of the doctors that the police do not know enough about sanitation to keep the city in a good sanitary condition, while the police commissioners do not hesitate to give it as their opinion that the police, who have large beats, do not have the necessary time to devote to it. It was hard enough, they say, for men who had nothing else to do but make inspections of premises to cover the town. The police simply cannot give it the attention it requires, although they will doubtless do the best they can.

One of the commissioners freely admitted he did not think the plan is a good one, or one that can or will give satisfaction. There has been only one warrant issued for maintaining a nuisance, and that was against a produce or packing house. The mayor ordered that.

The above will give the people of Paducah an idea of what the sanitary condition of Paducah is and is likely to be. A city of over 20,000 people with no sanitary inspections for six weeks and over, and none that will prove effective or satisfactory in sight, is not fit.

There is talk of calling a public indignation meeting to indicate the feeling of people who appreciate a healthy community against the public officers who have for weeks past so grossly neglected this important matter.

Mr. Wm. Rutledge Getting up an Important Petition.

Wants Deep Water on Duck River to Carterville.

Mr. William Rutledge, of the local branch office of the Standard Tie Co., is circulating a petition among those interested here to secure deep water navigation in Duck river as far as Carterville, Ga. The petition is directed to the Hon. L. P. Padgett, M.C. of the Savannah congressional district and as soon as a sufficient number of names is secured will be forwarded to the gentleman who will be urged to do what he can towards securing the improvements.

This is of particular importance to the men and will open up a great deal of territory where ties can be produced. The petition had several signatures before it had been out half an hour and Mr. Rutledge thinks he will have it ready for mailing within a few days.

**BIG RAINFALL.**

THIS SECTION VISITED BY THUNDERSTORM.

A thunderstorm, with heavy down-pour of rain, swept over this section shortly after 1 o'clock this morning, and from telegraphic reports was general in Kentucky.

The rainfall here was about one inch, and did great good, according to the farmers.

All the business and several dispatching wires on the Louisville and Memphis divisions of the L. O. were down this morning and the operators had nothing to do. Linemen were sent out and will have the breaks repaired as soon as possible. Last night's storm blew them down and the damage will amount to a great deal in loss of time.

**BANNS PUBLISHED**

MISS KATIE LYDON AND MR. J. W. MULLEN TO WED.

The marriage bans of Mr. Joseph W. Mullen, of Henderson, Ky., and Miss Katie Lydon, of this city, daughter of Mr. Mark Lydon, of South Eighth street, were announced this morning in the Catholic church. The young lady is well known, being a half sister to Messrs. Tom Lydon, the shoe merchant, and Mr. Will Lydon, the deputy sheriff. No date has been announced.

Mr. C. E. Jennings is today moving into his summer home in Arcadia.

**SURPRISED HIM.**

DOCTOR'S TEST OF FOOD.

A doctor in Kansas experimented with his boy in a test of food and gives the particulars. He says: "I naturally watch the effect of different foods on patients."

"My own little son, a lad of four, had been ill with lung fever and during his convalescence did not seem to care for any kind of food."

"I knew something of Grape Nuts and its rather fascinating flavor and particularly of its nourishing and nerve building powers, so I started the boy on Grape Nuts and found from the first dish that he liked it."

"His mother gave it to him steadily and he began to improve at once. In less than a month he had gained about eight pounds and soon became so well and strong we had no further anxiety about him."

"An old patient of mine, 73 years old, came down with serious stomach trouble and before I was called he got so weak he could eat almost nothing, and was in a serious condition. He had, himself, tried almost every kind of food for the sick without avail."

"I immediately put him on Grape Nuts with good, rich milk and just a little pinch of sugar. He exclaimed when came next day, 'Why doctor I never ate anything so good or that made me feel so much stronger.' I am pleased to say that Grape Nuts cured him, but he had to stick to it for two or three weeks, then he began to branch out a little with rice or an egg or two. He got entirely well in spite of his almost hopeless condition. He gained 22 pounds in two months which at his age is remarkable."

SUPT. WALLACE NOT YET IN CHARGE OF LIGHT PLANT.

There has been no settlement of the controversy over the city light plant. Superintendent Harry Wallace reported for duty about two weeks ago, but acting Superintendent Kehler, in charge, declined to turn the plant over to him, under orders, it appears, from the light committee.

Superintendent Wallace will not take charge until Mr. Kehler vacates, and Mr. Kehler has said nothing about vacating. Mr. Wallace, however, does not seem to be uneasy. It is claimed by his friends that he will put in his claim for salary from the time he reported for duty, and the city can pay another man, also, to do the work if it wants to.

Chairmen of the two Committees Still Cannot Agree.

Attorney Taylor Files a Formal Demand for a Count of the Ballots.

JUDGE REED GETS CERTIFICATE

A conference was held here this morning between Chairman Morrison of the McCracken county Democratic committee and Chairman Edwards of the Marshall county Democratic committee, relative to issuing certificates to the nominees of the district, composed of the two counties, for circuit judge and commonwealth's attorney.

The certificate was issued to Judge W. M. Reed of Paducah for circuit judge without objection, but when the matter came up of issuing a certificate to Attorney John G. Lovett of Benton, who on the face of the returns received the nomination over Attorney L. K. Taylor of Paducah for commonwealth's attorney, the latter presented a formal demand in writing for a count of the ballots.

Chairman Morrison thought it would be proper to count the ballots, but Chairman Edwards absolutely refused to agree to it, claiming that it could not be legally done at this stage of the game.

Attorney Lovett then arrived and suggested that Attorney Taylor file a mandamus asking that the ballots be counted. Attorney Taylor suggesting on the other hand that Attorney Lovett file a mandamus to compel Chairman Morrison to sign the certificate, which Chairman Morrison refused to do without a count. Attorney Taylor would not agree to do so, so it was announced that Attorney Lovett will at once file a mandamus to compel Chairman Morrison to sign his certificate of nomination, and the latter can then make such defense as he deems proper.

The papers are being drawn up today and will be filed in circuit court this afternoon, and probably be heard before Judge Henshaw tomorrow morning.

**HAVE THEIR DOUBTS**

About the Story a Stranger Told the Police.

Said He Had Been Robbed of Diamond, Watch and Money.

The police, after investigating a case reported to them a few days ago, have reached the conclusion that there is not much in it. A young man giving the name of Will Hines, came here from Jonesboro, Ark., ostensibly to locate a man who had entered his "Hins", saloon, and at the point of a pistol robbed him of a \$225 diamond, \$90 in money, an amethyst ring and his watch.

He claimed that the man had been devoting considerable time to a young woman who left soon after the robbery and came to Paducah, and he concluded the man came with her, or that she came here to join him.

He made a search of the city newspaper, not asking the police to accompany him, and being unable to locate any of them, left, and it is supposed returned home.

# DISPLAY OF THE WEED.

Kentucky Tobacco Signally  
Honored by Fair Officials.

ALL GROWERS TO SEND IN SAMPLES.

Premium Specimens From the Different Tobacco Fates Will Contribute to the Success of the Exhibit — A Special Sub-Committee Asking This Interest to Subscribe to this Fund.

The Tobacco Exhibit committee of the Kentucky Exhibit association is rapidly maturing its plans for a display of the "weed" at the World's fair next year. As has been stated in these columns before, Kentucky will have 50 per cent. of the total amount of space given to tobacco in the Agricultural building. This means that the committee in charge of the display from the Blue Grass state will have at its disposal 5,000 square feet.

Mr. Chas. D. Campbell, the chairman of this committee, proposes to make the exhibit not only instructive and valuable, but strikingly original. At the next meeting of his committee he will present a plan that will contemplate securing from every tobacco grower in the state—and there are something like 30,000 of them—a sample of premium tobacco. He is not making public the scheme of his exhibit, but enough of it is known for us to assure the public that every to-

Chairman Sub-Finance Committee on Tobacco.

bacco grower who contributes a sample will be given full credit in the display for his donation, and will be proud of the fact that he has contributed a good specimen.

Mr. Campbell has a committee consisting of about a score of the state's best known tobacco people, representing every distinctive type of this Kentucky product. He has recently issued a letter to the members, asking each to secure in his district, 30 samples with the name of the donor on each sample, and to represent in the samples collected, each grade of tobacco from trash to fine leaf. These samples will consist of 15 hands. They may be from the 1902 crop or the 1903 crop. In case they are from the former, they will have to be delivered in Louisville before Oct. 1, if from the latter, set

CHAS. D. CAMPBELL,  
Chairman Tobacco Exhibit Committee.

until March 1 next year. A committee of three is to be appointed by Mr. Campbell to secure samples from all the tobacco farms held in Kentucky between this date and March 1, 1904.

The General Finance committee of the association believes that the tobacco growers, dealers and warehouse men and manufacturers will be willing to contribute handsomely to the fund that will make possible a perfect exhibit of Kentucky tobacco. It has elected Colonel Sam H. Stone, of Louisville, chairman of a special sub-committee on tobacco, and Colonel Stone has appointed as his associates quite a large number of prominent tobaccoists in different sections of the state. A meeting of several of these was held recently in Louisville when it was decided to make every endeavor to raise \$5,000 among the tobacco interests of the state. A systematic and vigorous campaign for funds is to be inaugurated at once.

This Missouri Commission of the World's fair has set aside \$30,000 for the casting in bronze, for permanent preservation in Forest park, of the statue of Napoleon, to be executed by Daniel C. French, of Jefferson, by J. Q. A. Ward, and of the statue symbolical of Missouri, which will occupy a place in the Terrace of States. The statue of Napoleon and Jefferson will stand at the edge of the Grand Basin respectively west and south of the Educational building and east and south

# SAVANTS TO GATHER.

International Congress a Feature at 1904 World's Fair.

WILL ASSEMBLE IN SEPTEMBER.

Man of Science From All Parts of the World Will Convene in St. Louis and in One Week Will Deliver 300 Addresses.

A series of international congresses will be held Sept. 19-25, 1904, at the World's fair. The sum of \$200,000 is appropriated to cover the expenses of the international congresses. Such scholars as accept invitations to participate in the congress, and do a specified piece of work in accordance with the plan adopted, will receive an honorarium for papers and traveling expenses. The authorities of the universal exposition have from the first recognized the desirability of providing for a congress which should exceed in its scope anything heretofore attempted. Such a series of congresses is particularly appropriate for the St. Louis exposition, where for the first time the educational influences of an exposition are made the dominant factor, and the classification and installation of exhibits made contributory to that principle.

The administrative work was organized in November, 1902, by the appointment of Howard J. Rogers as Director of Congresses and the election of the following administrative board:

Nicholas Murray Butler, Ph. D., L. L. D., President Columbia university, New York, chairman.  
William R. Harper, D. D., L. L. D., President University of Chicago.  
R. H. Jesse, Ph. D., L. L. D., President University State of Missouri.  
Henry S. Pritchett, Ph. D., L. L. D., President Massachusetts Institute of Technology, Boston.  
Herbert Putnam, Litt. D., Librarian of Congress, Washington, D. C.  
Frederick J. V. Skiff, Director Field Columbian Museum, Chicago.  
Frederick W. Hollis, D. C. L., New York, member House tribunal.  
Dr. Simon Newcomb of Washington, D. C., will be the presiding officer of the International Congress of Arts

ART PALACE.

and Sciences, and for vice presidents will have the assistance of Professor Hugo Munsterberg of Harvard university and Professor Albin W. Small of the University of Chicago.

The Congress of Arts and Sciences will have one definite task: to demonstrate the unity of knowledge and thus bring harmony and interrelation into the scattered scientific work of our day. Leading scholars from the whole world are to deliver lectures.

The widest group will be the Science of Knowledge, divided into theoretical sciences and practical sciences. The theoretical sciences are divided according to purposes and phenomena into four main divisions: Normative sciences (absolute purposes); historical sciences (individual purposes); physical sciences (absolute phenomena); mental sciences (mental phenomena).

The practical sciences are divided into three main divisions: Utilitarian sciences; regulative sciences; cultural sciences.

These seven main divisions are then subdivided into the following general topics:

Normative Sciences — Philosophy, Mathematics

Historical Sciences — Politics, Law, Economics, Language and Literature, Education, Art, Religion.

Physical Sciences — Physics and Chemistry, Astronomy, Geology, Biology, Anthropology.

Mental Sciences — Psychology, Sociology

Utilitarian Sciences — Medical Sciences, Practical Economic Sciences, Technological Sciences.

Regulative Sciences — Practical Political Sciences, Practical Social Sciences, Practical Legal Sciences.

Cultural Sciences — Practical Educational Sciences, Practical Aesthetic Sciences, Practical Religious Sciences.

On Monday the congress will be opened by one address on the "Relation of the Congress to Scientific Progress"; another on the "Unity of Theoretical Sciences." The seven main divisions will also be discussed during the afternoon by an introductory address on the "Fundamental Conceptions" of each special division. Tuesday will be devoted to a consideration of the twenty-five departments of the congress, upon each of which two official addresses will be delivered, one on the history of that special department of knowledge during the last century, and one on its methods. On the remaining four days of the week, two official addresses, one on the relation to other sciences and one on the problems of today, will be delivered, on all but one of the one hundred and thirty sections into which the twenty-five departments are divided. Sunday, the 25th, will be given over to the remaining section, and three addresses made on the "Influence of Religion on Civilization." This will provide for 321 official

### The "Style of a 'Dorothy Dodd'"

Let us assume that your shoes fit you. Now what next? What is most important? Unquestionably "Style!" Demand that a shoe shall possess "Style!" If it has style and little else you want it; if it has not style but everything else, you don't want it!

The "Style of a 'Dorothy Dodd'" is unique.

It cannot be duplicated by any other maker, because the "Dorothy Dodd" is a totally different construction from any other ladies' shoe made. It holds the foot firmly at the waist (that's the instep), prevents the toes from slipping forward, and thus gives a correct poise in walking. Yet it makes the foot look nearly a whole size smaller. That's curious, and you won't believe it till you see it.

FOURTH AND COURT.

Armour Chicken Factory is a  
Public Nuisance.

Case Left Open—Other Cases in Po-  
lice Court Today.

The warrant against the Armour Produce company, which a few weeks ago started up in a building on South Third street near Court, opposite M. Nance, for maintaining a public nuisance, was called in the police court today and the evidence for the prosecution heard. The evidence was very damaging. It showed that the stench about the building is so foul that persons can hardly go near the place. Judge Sanders at the request of the local manager, left the case open for further evidence, but there is already enough to show that it is a bad character of nuisance. Judge Sanders said that a slaughter house or glue factory could not hold a candle to the Armour place, and the judge knows, because he has been to the Armour place to see for himself. He said it ought to get outside the city limits, and said that if the evidence already adduced holds good the company will be fined for every day it operates in its present location.

The warrant against the Rhodes-Burford company for failing to pay license as specified by the law, \$2 for each clerk employed, was set for tomorrow.

A petty larceny case against John Henry Vickers was left open.

Mable McDonald, white, charged with stealing a \$60 diamond ring belonging to Mrs. Daisy Cooney, was held to answer in the sum of \$200. She pleaded not guilty but it was shown that she was seen with a ring similar to the one she was charged with stealing when a domestic at Mrs. Cooney's. The ring has never been found. The woman gave bond and was released.

S. A. Robinson, a steamboat watchman, was charged with drunkenness. He said he walked "funny" because he is paralyzed and the police thought he was drunk. He was fined \$1 and costs and if a doctor's examination shows his condition as he claims, he will be released.

John Jackson, colored, was fined \$5 and costs for sleeping in a box car.

His Resignation Was Refused, But He  
Says He Has Enough.

Councilman Ed Woolfolk, of the Sixth ward, who tendered his resignation to the council Monday night at its regular meeting, says that he has quit, no matter if the board did refuse to accept the resignation.

Councilman Woolfolk says that the demands on him in the capacity of a public officer are too great, and he has had honor enough.

By unanimous vote the council refused to accept his resignation when Mayor Yeiser read it, but Councilman Woolfolk says he has left the board for good even if his resignation hasn't been accepted.

He did not attend the called meeting last night and states that he will go to no more of the meetings.

The only man thus far mentioned as a probable successor to Councilman Woolfolk is Mr. George Shelton of Shelton Bros. foundry.

### LIVELY MIX-UP

COLORED PUGILISTS FIGHT A  
DRAW ON THE SOUTH SIDE.

The "Alabama Kid" and Tom Buckner, colored, the latter of Indianapolis, fought a six round draw at Bud Simms hall in Mechanicsburg last night and the fight was one of the hottest ever seen in Paducah, according to those who saw it.

The "Kid" claims that the fight was a draw and that he only played with his "victim" during the first round "showing him up" in the last two. The "Kid's" lip is badly swollen but he shows no other marks. Buckner's face resembles one that had lately gone through a threshing machine, it is said.

Mr. E. E. Bell went to Johnsonville, Tenn., this morning on business.

### THE RIVERS.

The Savannah is due to St. Louis tomorrow.

The Memphis is due to Tennessee river tomorrow.

The Tennessee is due tonight from Tennessee river.

The Inverness went into Cumberland river this morning.

The Pearce arrived and departed on time today for Golconda.

The Clyde left last night for Tennessee river with a good trip.

The Harry Brown and Exporter are towing coal from Cairo to St. Louis.

The Hopkins arrived late from Evansville this morning with a good trip.

The Buttorff arrived last night from Clarksville and departed this morning for Nashville.

The Dick Fowler left this morning on time for Cairo. She will run an excursion to Cairo Sunday.

Tennessee river boats are preparing to run big excursions to Shiloh for Decoration day, a week from Saturday.

The Victor and Grace Smith arrived yesterday afternoon late from Tennessee and Cumberland rivers respectively.

The Wilford arrived from Tennessee river last night and returned from Brookport this morning, where she discharged her tow.

The Uncle Sam, a government boat, arrived from Nashville this morning, where she had been chartered out by the Tennessee Central road.

Uncle Sam has commenced getting his improvement apparatus out all along the upper Ohio, and surveying parties are in the field fixing flags for all kinds of markers.

The excursion steamer J. S. gave two excursions yesterday, one in the afternoon and the other at night. The afternoon trip was poorly attended, but the night excursion was successful, a large crowd attending. This is the first trip this boat ever made here and she left after the crowd had been discharged for the upper Ohio.

Isaac Williams, United States Hull Inspector at Pittsburg, was a former towboat commander, and for a time had command of the Joe B. Williams, when she was owned by Jettie & Co. The United States boiler inspector, George Atkinson, was also a former river engineer, and was engaged on a gunboat during the Civil war. He has a very vivid recollection of some of the incidents connected therewith.

The bids for the construction of two new steel lock gates for the new dam in the Ohio river, known as Lock No. 6, at Merrill, were opened at Pittsburg. The lowest bid was from the Pennsylvania Bridge company, of that city, who gave the cost of the new gates to be \$18,000 each gate, or \$19,240 for both. The prices estimated for the cost of these gates are just twice as high as paid for the gates at Davis Island dam. The proposed new gates are of the same pattern and quality. The difference in figures, however, only demonstrates the advance in the price of steel since the construction of the Davis Island dam.

### PALE ALE AND KY-LO

AGAIN DECLARED NON-INTOXICATING BY THE COURT.

A case of much interest was tried before Circuit Judge R. E. Majdan of Dresden, Tenn., in which W. D. Frazier of Martin, Tenn., was charged with selling Laevison's Kyoto and Pale Ale, which were claimed to be intoxicating; but after testing these drinks and hearing the evidence of a number of witnesses, and the proof showing them to be non-intoxicating, the jury dismissed the case, deciding that it was not a violation of the local option law to sell these beverages.

The decision is of much importance to A. M. Laevison & Co. of this city and their many customers in this state and Tennessee.
